

Who is Dolly P Koala?

She started out as an 'End Polio Koala No. 37' and was handed to our club for presentation at District Conference, 'give her a name', we were told, 'dress her up', 'let your imagination run wild' or just take photos and publish.

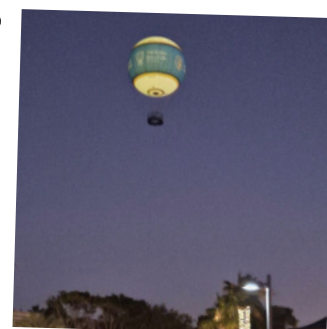

These sorts of words were music to our imaginative members ears and, before long, 'Dolly P Koala' was born. The vestments of polio were relocated (still visible) and she was set to become a world-wide traveller, however, when the time came to head to the airport, Dolly P was nowhere to be seen – maybe nerves got the better of her, she certainly missed out on the sights of Dubai!

Missing out on meeting an Eagle may have been good. We don't think Koalas and Eagles go together.

If only she made it to Dubai, she could've gone on a night time hot air balloon ride!

Dolly missed out on a great performance!! One she would've loved to have joined in on.

When her carer returned, a full search of car and house ensued and still Dolly was AWOL, however, after some careful consideration, was eventually located, hiding in the pantry.

So started the photo shoots and she has been attending club meetings, social events and generally enjoying her new life.

It was time to get our money's worth out of her (even though she didn't cost us anything) and she has been working at our BBQs and on our 'donations' bucket, however, she tried to enter the events at the swimming carnival before being retrieved and returned to her 'real' job.

Our club's end of month social found her joining members and friends, for barefoot bowls, at the Campbelltown Bowling Club – it didn't take her long to get into the action and then enjoy the camaraderie.

For her last activity before District Conference, this week she has visited Milton Ulladulla Rotary Club for fellowship at their dinner meeting, where she behaved impeccably and didn't cause too much trouble – candid camera kept a close eye on her.

Her bags are now all packed and ready for Wollongong where she is hopeful of raising funds for END POLIO NOW and 'points' for the 'Funrisers' at District Conference.

Please enjoy her 'trip(s)' and escapades!
