Where are we going?

The Bulletin of the Rotary Club of Macarthur Sunrise Inc., Macarthur Group, District 9675

Wednesday, 29th August 2018
Solis Ortus (Sunrise) - Campbelltown 6:18 am

A WORD FROM PRESIDENT BEC

Good morning to my fabulous bunch of Sunrisers! A bit quieter this week than last but still lots to be thankful for. We have had some members not well and happy to report they are on the mend and hoping they are back with the band soon.

We had two days of horse wrangling at the Sugarloaf with a few dance moves, some amazing signing and Sharon scored a 5 from Denise for her show jumping.

Its national Op Shop Week they are a great place to shop for treasures. They are run by thousands of volunteers across Australia and proceeds go back into community projects, so pop into to one and see what you can find! Let's keep this week galloping along with a smile:)

The Sugarloaf Crew

BEC'S SHOUTOUT

A massive thank you to Brian and Joe from the friendly Club (Narellan) for their help at Sugarloaf.

The Rotaract Club of Western Sydney Uni sent fabulous members that were a great help and we are building a great relationship thanks to Georgia.

To our Sunrise partners, Sean and Peter, you are gold!

Have a great week. President Bec.

LAST WEEK

Last week we heard from our Member, Greg Warren. Greg is not only a Member of Macarthur Sunrise Rotary but also our local State Member of Parliament.

Greg talked in millions of dollars (not for Rotary) for Campbelltown with an expansion of the Medical School for the Western Sydney University.

Greg also reminded us of the support available for NGOs (non-government organisations).

Population, Greg told us, is increasing. For Australia it is now around 25 million (about the same size as Beijing, China and a bit smaller than Delhi in India). For Sydney the population is 4.8 million with 3.2 million adults and 1.6 million children.

Finally, Greg spoke about the Parliament and that we follow the "Westminster System". Greg explained how this works and that he fully supports this arrangement.

Thanks Greg for your support for us and Campbelltown. You can keep up with Greg on Facebook.

FROM LIZ – LOCAL HISTORY

Rose Payten Drive in Leumeah is named after a champion sports person born in 1880 in Home on Campbelltown Road called "Woodbine".

She played cricket, golf, horse riding and shooting but tennis was her best game. She won many titles before retiring in 1907. She went on to breed harness ponies winning prizes at the Royal Easter Show.

She was instrumental in forming the Campbelltown Associates Golf Club and won the championship six times in the 1930s.

Rose died in the family home in 1951 aged 71.

She is still remembered as one of Campbelltown's finest sporting personalities.

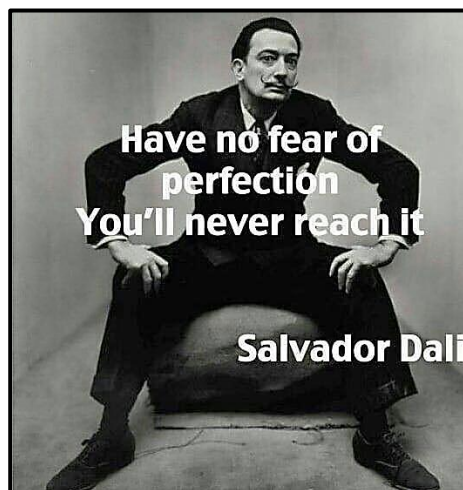

Early Picture Rose Payten.

COMING UP

September 22nd is the next Discobility. For us we get there at 4:30 and finish at 9:00. Please come. It is a great evening and well supported.

BEC'S THOUGHT FOR THE WEEK

THE ENVIRONMENT

Campbelltown City Council have some great initiatives. check out the link and get involved! Remember every little bit helps. Campbelltown may be a thriving city – but it also home to pristine bushland, unspoilt waterways and prolific wildlife. Thanks to Campbelltown City Council's July to December calendar of environmental programs, it's easy to discover all the natural beauties of our city.
